THE ETERNAL PENDULUM: EVER, NEVER

Ever sunshine, never shadow, calm, mild, clear, celestial day: ever summer, never winter; naught of drooping or decay!
 Sweetest music – ever, never – ever bliss, but never woe; sweetest beatings – ever, never – swaying softly to and fro.

3. Ever gazing, ever praising, with the angel hosts above; one eternal Hallelujah, one unending song of love!
Sweetest music – ever, never – ever bliss, but never woe; sweetest beatings – ever, never – swaying softly to and fro.

4. Never sighing, never sinning; no distrust, nor doubt, nor fear, through the ages of the ages, through the long eternal year!

Sweetest music – ever, never – ever bliss, but never woe; sweetest beatings – ever, never – swaying softly to and fro.
